

# 2019 REAL ESTATE SUPERSTARS

## RE/MAX TECHNOLOGY AWARD WINNER

Christine Espinoza of Re/Max Fine Properties

Christine Espinoza works with buyers and sellers not just locally, but nationally and worldwide. A Realtor for over 20 years, she has earned numerous designations and awards due to her experience, hard work, and loyalty to her clients.

"I truly care about my clients and put their needs and best interests first. I still get excited about finding my clients the perfect home or coming up with creative marketing ideas for my listings. I wake up every day loving what I do and sleep well at night knowing I've done my best and have helped people along the way," she says.

Christine utilizes social media and video to market and connect with the surrounding communities, clients, and potential buyers. "Real estate is a social business and social media platforms are a great way to reach massive amounts of people, target very specific audiences and stay connected with past clients. I use video to create content that not only gets the word out about my listings, but also tells the story about my community and areas where I sell homes."

As someone who is invested in community, Christine sponsors events for both of her sons' schools. She and sons, Dominic & Brody, are involved in community outreach programs which include serving dinner to the homeless in downtown Phoenix and collecting items to donate for back-to-school supplies and hygiene kits.

Christine goes above and beyond for her clients at every step of the home buying/selling process. A Certified Master Negotiation Expert, she is skillful in the art of negotiating the best deal for her clients who appreciate her honesty and positive attitude.

Christine was voted one of Arizona's 50 Most Influential Women in Business by AZ Business Magazine. Additionally, in 2019, she was awarded both the Re/Max Fine Properties Award for Technology and the Re/Max International Platinum Award for Production.

Specializing in residential real estate in Scottsdale, Christine does over 50% of her business in her own neighborhood community of McDowell Mountain Ranch, where she also serves on the committee for event planning.

"Learning to enjoy the process, fine tuning skills, and making a difference in this world one small act of service at a time is my definition of success," she says. "I believe in building relationships one home at a time."
